

DUTCH FLAT ENQUIRER.

SATURDAY, MAY 23, 1868.

TO PRINTERS.

THE undersigned being about to engage in business, offers the material upon which the ENQUIRER is printed at a bargain, together with one of the best Job Offices in the State, consisting of

A LARGE ASSORTMENT of the latest style of **PLAIN AND FANCY JOB TYPE!** A No. 4 Washington Press, and a large size Huggins' **JOB ENGINE.**

The material is good as new, and the presses in first rate order. Inquire at this office. **R. B. BOUST.**

IMPROVEMENTS.—John Myers, of the Old Corner Saloon, has built a new side walk from his saloon to Mr. Halsey's blacksmith shop. This was a much needed improvement. Mr. Myers has his generosity has called down showers of praise upon him from the good people of our town. We now urge upon our citizens the necessity of raising a sufficient sum of money to pay for the grading of the lot below Mr. Myers; it is a necessary improvement. Mr. Halsey has got his new blacksmith shop finished and ready for business. From the above notice it will be seen that our street, Sacramento, is looking up.

CALICO PARTY.—It will be seen by a card in another column that the ladies of Gold Run intend giving a calico party at the Hackett House, in Gold Run, next Thursday evening for the benefit of the public school at that place. A general invitation is extended.

We learn that the Dutch Flat Company in drifting from the bottom of their shaft have disclosed a body of cement in which gold in paying quantity is plainly discernable.

RAIN, WIND.—This vicinity, during the past week has been visited by alternate storms of rain and wind, and it has been quite cold the greater portion of the time.

MILLINERY.—The attention of the ladies of this place is called to the card of Mrs. Beasley, in another column.

WARE BROS., of Gold Run will accept our thanks for a liberal supply of Dr. C. M. Sarsaparilla Beer. It is a delightful summer beverage, and an excellent thing to have in the house.

The Mite Society meets at the residence of Mr. Halsey next Tuesday evening.

JOHN NEGENT has commenced suit against the Hibernia, and one or two other savings and loan societies of San Francisco, for \$13,000 for services rendered in trying to get a bill of interest to said societies passed at the last session of the Legislature. That hasn't any appearance of "lobbying," oh, no!

WM. M. GRANT of Fremont, Washoe co., Ill., would like to know the whereabouts of Captain A. S. Grant, formerly of this county. Conrad Kinstler, No. 700, Harrison Avenue, Boston, would like to know where his son John Richard Kinstler is.—Who knows?

The telegraph informs us of the unusual nomination of Grant for the Presidency, and Colfax for Vice, on the fifth ballot. The nominations seem to give general satisfaction. The announcement of the nominations are answered by the roar of cannon, and the huzzas of the electrified multitude.

An association has been formed, composed of the heaviest capitalists of San Francisco, to contest the release of fraudulent bankrupts under the National Bankruptcy Act, and to examine into the affairs of those who may apply for its benefit. So many of the business men of that city have been swindled by unprincipled knaves that forbearance ceases to be a virtue.

The Victoria Colonist, of May 11th, has the following astounding intelligence:

"The telegraph brings us, in its daily record of the events of the world, tidings of one of the most fearful calamities known in its history. A volcanic eruption has occurred at the Sandwich Islands, destroying in its resistless fury a town of about a hundred thousand lives, and an amount of property that cannot be estimated."

Verily, that was a tell-tell-graphic dispatch.

Two farmers in the valleys and foothills are busily engaged in making hay, and the crops of grain are said to be exceedingly thrifty this season. The crops in all the grain growing districts of the State are described as being very promising, and it is thought, by judges, that the yield of crops, this year, per acre, will be greatly in excess of ordinary seasons. The bright light of prosperity seems to be shining upon our farmers.

PASSER UP.—Charles Crocker and a party of Railroad "sharps" passed up the river one day this week, on a tour of observation in the direction of Gravelly Ford. At Winnemucca they advised the inhabitants to keep a sharp lookout for the railroad, as it was liable to make its appearance at any time, and should it come upon them suddenly and unawares some of them might not be able to get out of the way, and the company didn't want to be responsible for damages. It would be well for the people of Winnemucca to employ an sentinel and station him on one of the sand hills below the town, in order to notify them of the approach of the cars and thus prevent damage.—*Humboldt Register* May 16.

The Kulak Klan brethren seem to be quite a poetical-minded set of cut-throats, and are much given to indulging in high-flown rhetoric. Here is a flowery extract from one of their circulars:

"The ghosts of our martyred dead fit no more uneasily on the Stygian shore, crying for vengeance, but rest in bliss in the Elysium of the Brave. Once more unto the breach, dear friend!—Once more."

By the dagger and the bowl! By the pickaxe and the brand! Save our Race and Land.

Attend the Cabala, and the curse of Jemius upon him who speeds not the foot of his mystic summons.

The author of that may be pronounced the smoothest spoken wretch that ever turned a barn or "carved" a nigger.—*Oakland News.*

The Masonic Temple, at Washington D. C., is rapidly approaching completion.

THE AMERICAN PRESS.

A century ago there were but two newspapers in America, and their subscription lists did not contain above two thousand names. When the federal Constitution was adopted there were not more papers than States in the Union. News in those days of slow coaches and sailing craft was a precious commodity. It traveled slowly over the world. A week was required to transmit intelligence from Philadelphia to Boston—six weeks from London to New York, and two months from New Orleans to any point on the Atlantic seaboard at the north.

Dailies were consequently, a thing not dreamed of. Now there are eighteen hundred journals in the United States, and two of them, the New York Tribune and Herald, address a reading world of probably a million of people. It is almost impossible to over-estimate the influence of an institution like the American press. It is potent in a good cause, and almost irresistible when directed to mischief.

We think it was Mr. Jefferson who said that he could not determine which was the greater curse to a country, to be without any press, or to have one of a licentious character. Had the philosopher lived in these times, and been a constant reader of our political journals, we incline to the opinion he would have decided that the latter was the greater evil. It is difficult to understand the sources of the power wielded by some of our leading journals. Not unfrequently we find a man who, in all the social relations, is utterly despicable—whose word inspires no confidence, and whose moral character is at the lowest standard, obtaining the control of a paper, and through its columns moulding the public opinion of a city, county or State. A notable illustration occurs in the New York Herald, and its editor James Gordon Bennett. The Herald started more than thirty years ago in New York city, under the management of its present ostensible chief. Able, energetic, and unscrupulous, Bennett has arisen from the obscure position of a needy adventurer, to influence and wealth. The history of the Herald may not be familiar to all our readers. It is a curious page in American journalism, and is not without instruction. It was perhaps the first paper ever published in the United States, avowedly on practical principles. Working upon the weak, vicious and profane portion of the community, and prostituting its columns for the vilest of purposes, it soon became notorious through the land. In every town and village it had its infamous correspondents who, by enclosing a five or ten dollar bank note could with impunity attack the noblest character. The unprincipled wretch who edited the paper was as dead to shame as he was callous to remorse. Not unfrequently he was lashed, like a cur, through the streets of New York. The next number of the Herald was sure to contain a graphic description of the infliction. His paper would be a consequence, be eagerly sought after, and thus money made to the editorial enthusiasts. In one respect, Bennett certainly surpassed all contemporaries—the publication of the latest news. For the attainment of this end, no expense was spared. Before steam navigation on the Atlantic was known, and in the days of sailing vessels, the Herald's swift fleet of news-seekers would often board ships hundreds of miles from shore, speed back to port and furnish the paper with the latest and most intelligence. With this utter want of principle, and untrusting industry, Bennett united shrewdness, tact and superior talent. Still his venality is notorious. His pen, like the sword of a Dalgat, is always purchasable. No Swiss was ever more mercenary, and no hireling more faithless. Although these things are well known in the United States, the New York Herald is one of the institutions with the largest circulation of any paper in the world, and with more capital to back it than any other journal of the country. Bennett is only the type, endowed with a higher order of intellect, of a large class of journalists. We have in our mind's eye another noted editor, whose paper stands, in point of influence, almost at the head of the political press of the country. The private character of the man is infamous. Some years ago he figured in a celebrated divorce case, as the author of a vile conspiracy to entrap and ruin a defenseless woman. Still later, he was the contriver of a system of stupendous frauds by which, it is believed, the electoral vote of the several States in the Union was cast for a minority candidate. With such crimes well known and not denied the perpetrator of them through the columns of his journal an immense influence on the public mind.

We can hardly imagine that the press of a country, controlled by such men as the two we have alluded to, could exert a healthful influence on the morals of any community. We rejoice to believe, however, that there are hundreds of true and valiant spirits engaged in American journalism, who are above every suspicion of such baseness as we have delineated. Unawed by threats, unmoved by persuasion, and uncorrupted by gold, they pursue the course which conscience dictates as right and proper.

ATTEMPTED ASSASSINATION.—We learn from the Idaho Statesman, that an attempt was made a short time since to assassinate the editor of the Owyhee Avalanche. "Two desperadoes named Prescott and Coye armed with hatchet and knife, found the editor Mr. Hill wide-awake, and both men were compelled to plead for mercy."

DON ABLE STEARNES has sold 197,000 acres of land in Los Angeles county to Sam. Brannan, Ed. Martin, C. B. Polhemus and E. Northam. They intend dividing the land up into small farms and offering it for sale in the Eastern markets.

DAFT.—It may be very smart, but we can't see it, for a paper to offer to publish Sheriff's sales for 75 cents each. The Plumas National, we notice, proposes to do it. It looks very much, to us, like "cutting your nose off to spite your face."

STILL THEY COME.—The Ocean Queen sailed from New York for Aspinwall with 1,100 passengers.

NEARLY twelve hundred mechanics arrived during the past month in this State from Boston alone.

STRANGE FREAK OF NATURE.—The Tyeke Union, of May 9th, says:

We are informed that a lake of considerable extent has been formed this spring on the line of road from here to Soda Springs, in the Sacramento, near the residence of Mr. Deitz. There is a low piece of land there in the form of a reservoir, which heretofore has collected and held, during the rainy season, considerable water. In former seasons, as soon as the rain stopped and the snow in the vicinity was gone, the water in this pond rapidly subsided until it entirely disappeared and left the ground bare. This spring, however, the waters of this pond, instead of decreasing with the cessation of the rainy season, and the disappearance of all the snow in the vicinity that could add to their bulk by its melting, have gone on regularly increasing. All what has heretofore been but a temporary pond, seems to be swelling now to the dimensions and importance of a permanent lake. Since our last rains, and since all snow in the vicinity has disappeared, this pond or lake has enlarged its area and increased its depth, spreading over the public highway, till travel is compelled to seek a new road. What has caused this freak of nature? This phenomenon is but a few miles from the base of Shasta Butte, and in a south-westerly direction from it. In this same connection we may remark that we have been informed on undoubted authority that the water in the Big Springs—some springs in Shasta Valley near the western base of the Butte, and from which Shasta River, particularly during the dry season, derives a large portion of its water—has been known, even in the driest portions of the driest seasons. Is there any connection between the development of a new lake on the water supply of the Sacramento, and the drying up of the fountains that feed a tributary of the Klamath? And if so, it is due to volcanic forces acting in and disturbing the very foundations of the earth's crust. The earthquake which visited us last week would suggest that volcanic or other internal forces are sporting with the very ground on which we stand.

HOISTED BY THEIR OWN PETARD.—All the twaddle of the day about the South being given up to the control of the negroes is fully refuted in an editorial which appears in the Oregon Herald of the 3d instant, says the Marysville Appeal. To show how completely Democrats can overthrow their own argument, we give a paragraph from the article referred to. We have given above the heading of the article every way suitable to the subject:

The fact is, the attempt to rule the South by negro votes in the interest of the Republicans is a gross mistake. It can only be made practicable by perpetual military despotism. Every man who knows anything of negro nature, knows that without any outside interference the negro naturally and inevitably submit to the superior race with which he is brought in contact. Where the military and the Freedmen's Bureau dominate, they will vote as those powers direct; take them away, and they vote as their old masters direct. Put ten white men of ordinary intelligence into a community with a hundred negroes and the whites will rule. Charles Sumner and other New England demagogues, in their public speeches to the laboring men of Boston and Lowell, would tell them that the owner of a hundred slaves in the South had sixty votes, while no white man in the North was allowed more than one vote. The practical truth at the same time was, that every manufacturer in New England who employed a hundred men, controlled a hundred votes, or the men were thrown out of employment. Under the present reconstruction system every man in the South who employs a hundred negroes will control a hundred votes, instead of the old system which gave him but one vote on a basis of representation. The practical truth at the same time was, that every manufacturer in New England who employed a hundred men, controlled a hundred votes, or the men were thrown out of employment. Under the present reconstruction system every man in the South who employs a hundred negroes will control a hundred votes, instead of the old system which gave him but one vote on a basis of representation. The practical truth at the same time was, that every manufacturer in New England who employed a hundred men, controlled a hundred votes, or the men were thrown out of employment. DUTCH FLAT ENQUIRER.

RELIGION.

Ask but the man who has a head
Susceptible of thought;
A heart not all to virtue dead,
But feeling as it ought—

Whether he candidly believe
Religion all a vain delusion;
A force which purports to deceive,
To make the soul unblest?

Would God, all-merciful and just
A weaver thus employ
Our hopes to prosper in the dust,
And staid our only joy?

Ah no—what millions answer no,
Who feel its vital power;
A balm to soothe the agonizing woe,
In trouble's painful hour—

A lamp which casts beyond the grave
Its ever cheering ray—
A ransom for the hell-bound slave—
An endless joyous day.

What can the atheist, in exchange,
Give for so great a prize?
Amplification of his knowledge,
For kingdom's in the skies—

Alas how, worldly pleasures here,
Soothe woe and soothe the pain;
And for eternity—a year!
A seraph for a brat!

Blot from the universe the sun,
And e'en the pale light of the moon;
See all creation's works undone,
And sunk in endless night—

Take, thinkless infidel, away,
Whatever else you can,
But leave, O leave us mental day,
The light of God to man.

A dilapidated old darkey in Montgomery, while watching the monkeys in a menagerie in that city sojourned thusly: "Dem chellans got too much sense to come outen dat cage; white folks cut dar tails off and set 'em to votin' an' makin' constitutions."

LADY: "What are you teaching her, Nurse?"
NURSE: "Letter A, Mum."
LADY: "Then let her be."
NURSE: "If she doesn't learn it I'll let her see."

FREIGHT is taken to New York for fourteen dollars currency per ton around the Horn, and twenty dollars in gold via the Isthmus.

ANOTHER fearful epidemic is raging in Mauritius; over 1,800 deaths have been reported.

THE average wealth of each inhabitant in Connecticut is \$900.

HAPPY is the man who doth all the good he talks of.

HE doth not lose his labor who counts every word he speaks.

MEDICAL.

THE SCIENCE OF HEALTH!

Every Man His Own Physician.

HOLLOWAY'S PILLS.

AND

HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—abused or debilitated, it causes indigestion, offensive breath and physical prostration are the natural consequences. Affected to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize by Constipation, Diarrhea and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum.
Are two of the most common and violent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.
Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.
Arising from a bad state of the blood of chronic diseases, are eradicated, and a clear and transparent surface realized by the restorative action of the Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.
Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.
Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emollient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:
Bunions, Piles, Sore Legs,
Burns, Rheumatism, Sore Breasts,
Chilblains, Rheumatism, Sore Heads,
Fistula, Salt Rheum, Sore Throats,
Gout, Scalds, Sprains,
Stiff Joints, Tetter,
Lambs, Skin Diseases, Venereal Sores,
Sores of all kinds, Mercurial Eruptions,
Swelled Glands, Wounds of all kinds.

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a Water Mark in every leaf of the book of directions around each pot or box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

There is considerable saving by taking the larger sizes.

X. B.—Directions for the guidance of patients in every disorder are affixed to each pot and box.

Dealers in my well-known medicines can have Show Cards, Circulars, &c. sent FREE OF EXPENSE, by addressing Thomas Holloway, 80 Maiden Lane, New York.

\$1,000,000.

FOR ONE DOLLAR.

The Merchants' and Manufacturers' Jewelry Association

Calls your attention to the fact of its being the largest and most popular Jewelry Association in United States. The business is and always has been conducted in the most candid and honorable manner. Our rapidly increasing trade is a sure guarantee of the appreciation of our patrons for this method of obtaining rich, elegant and costly goods. The sudden stagnation of trade in Europe, owing to the late German war, and recent disastrous financial crisis in Europe, has caused the failure of a large number of jewelry houses in London and Paris, obliging them to sell their goods at a great sacrifice, in some instances less than one dollar, retail.

We have lately purchased very largely of these bankrupt goods, at such extremely low prices that we can afford to send away finer goods, and give better chances to draw the most valuable prizes than any other establishment offering a similar business. Our aim is to PLEASE, and we respectfully solicit your patronage, as we are confident of giving the utmost satisfaction. During the past year we have forwarded a number of the most valuable prizes to all parts of the country. Those who patronize us will receive the full value of their money, as no article on our list is less than one dollar, retail, and there are no blanks. Parties desiring with us may depend on having prompt returns, and the article drawn will be immediately sent to any address by return mail or express.

The following parties have recently drawn valuable prizes from the Merchants' and Manufacturers' Jewelry Association, and have kindly allowed us of their names.

Frederick V. Browne, Esq., Treasury Department, Washington, D. C., value, \$1,450.
Miss Anna L. Frost, Waverly Terrace, N. Y. City, Ladies Gold Enamel Diamond Set watch value, \$900; William B. Evans, New Orleans, La., Sewing Machine, value, \$75; George L. Davenport, Mobile, Ala., Silver Tea Set, value, \$200; Miss Lucy Orent, Albany, Ill., Sewing Machine, value, \$60; Mrs. Mary J. Jones, Louisville, Ky., Gold Watch, value, \$300; James B. Fowler, Harrisburg, Pa., Silver Hunting case watch, value, \$75; Rev. Wm. C. Peyster, Milwaukee, Wis., Wheeler and Wilson Sewing Machine, value, \$125; J. C. Bickford, San Francisco, Calif., Gold Watch, value, \$100.

Gold Watch, value, \$100; Miss Helen E. Sinclair, Detroit, Mich., Diamond Ring, value, \$225; Horatio G. Frost, Chicago, Ill., Large oil painting, value, \$300; Mrs. Charlotte E. Hewins, Doniphan, Kansas, Chickering Grand Piano, value, \$700 and Music Box, value, \$65.

Many names could be placed on the list, but we publish no names without permission. Our patrons are desired to send U. S. Currency when convenient.

PARTIAL LIST OF ARTICLES TO BE SOLD For One Dollar Each, without regard to value, and not to be paid for until you know what you are to receive:

10 Chickering Grand Pianos, worth \$500 to \$700
35 Elegant Rosewood Pianos 200 to 400
15 Elegant Melodions and Wood cases, 175 to 250
10 First-class Sewing Machines 40 to 100
75 Fine Oil Paintings 30 to 50
150 Fine Steel Engravings, framed 20 to 30

PATENT MEDICINE.

HELMBOLD'S BUCHU.

THE ONLY KNOWN REMEDY

FOR

DIABETES,

IRITATION OF THE NECK OF THE BLADDER,

INFLAMMATION OF THE KIDNEYS, CATARRH OF THE BLADDER,

STRAUTARY OR PAINFUL URINATION.

For these diseases, it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms. Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of Helmbold's Buchu will relieve you.

PHYSICIANS AND OTHERS PLEASE NOTICE.

I make no secret of ingredients. Helmbold's Extract of Buchu, is composed of Buchu, Cubebs, and Juniper Berries, selected with great care, prepared in vacuo and according to rules.

These ingredients are known as the most valuable Diuretics afforded.

A DIURETIC is that which acts upon the kidneys.

HELMBOLD'S EXTRACT BUCHU ACTS GENTLY.

Is pleasant in taste and odor, free from all injurious properties, and immediate in its action.

FOR THE SATISFACTION OF ALL

See Medical Properties contained in the Dispensatory of the United States, of which the following is a correct copy:

"BUCHU. Its odor is strong, diffusible, and somewhat aromatic. Its taste is bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, morbid irritation of the Bladder and Urethra, diseases of the Prostate, and Retention or the Incontinence of Urine, from a loss of tone in the parts concerned in its excretion. It has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections, and Dropsy."

See Professor Dewees's valuable works on the Practice of Physic.

See remarks made by the celebrated Dr. Physic of Philadelphia.

See any and all Standard Works on Medicine.

[Dr. KEYSER is a physician of over thirty years' experience, and a graduate of the Jefferson Medical College and of the University of Medicine and Surgery of Philadelphia.]

MR. H. T. HELMBOLD:

DEAR SIR:—In regard to the question asked me as to my opinion about BUCHU, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have used or sold, that has been so beneficial in the various diseases which such indicate agent would be indicated.

You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgment, is warranted by the facts.

I have seen and used, as stated before, every form of BUCHU—the powdered leaves, the simple decoction, tincture, fluid extract; and I am not cognizant of any preparation of that plant at all equal to yours. Eighteen years experience, I think, to give me the right to judge of its merits, and with no prejudice or partiality, I give your precedence over all others.

I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys, than I have ever seen cured with any other proprietary compound of whatever name, or any other Buchu.

Respectfully, &c.,
GEO. H. KEYSER, M. D.,
11 Wood street, Pittsburg, Pa.
August 11, 1885.

ASK FOR HELMBOLD'S FLUID EXTRACT BUCHU.

From the Largest Manufacturing CHEMIST IN THE WORLD.

I am acquainted with H. T. Helmbold; he occupied the drug store opposite my residence, and was successful in conducting the business where others had not been equally so before. I have been favorably impressed with his character and enterprise.

WM. WEIGHTMAN (firm of Powers & Weightman), Manufacturing Chemist,
Ninth and Brown streets, Philadelphia.

The proprietor has been induced to make this statement from the fact that his remedies, although advertised, are

GENUINE PREPARATIONS.

and knowing that the intelligent refrain from using anything pertaining to Quackery, or the Patent Medicine order—most of which are prepared by self-styled doctors who are too ignorant to read a physician's simplest prescription, much less competent to prepare Pharmaceutical preparations.

THESE PARTIES RESORT to various means of effecting sales, such as copying parts of advertisements of popular remedies and finishing with certificates.

The Science of Medicine stands SIMPLY PURE AND MAJESTIC, having for its basis, induction for its pillar, truth alone for its capital.

A word of Caution.
Health is most important; and the afflicted should not use an advertised medicine, or any remedy, unless its contents or ingredients are known to others besides the manufacturer, or until they are satisfied of the qualifications of the party so offering.

HELMBOLD'S GENUINE PREPARATIONS, FLUID EXTRACT BUCHU, FLUID EXTRACT SASSAPARILLA AND IMPROVED ROSE WASH, Established upwards of eighteen years.

Prepared by H. T. HELMBOLD, PRINCIPAL DEPOTS, HELMBOLD'S DRUG AND CHEMICAL WAREHOUSE, 264 Broadway, New York, and HELMBOLD'S MEDICAL DEPOT, 104 South Tenth Street, Philadelphia, Pa. Price \$1.25 per bottle or 6 for \$6.50. Sold by all Druggists.

MR. H. T. HELMBOLD:

DEAR SIR:—In regard to the question asked me as to my opinion about BUCHU, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have used or sold, that has been so beneficial in the various diseases which such indicate agent would be indicated.

You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgment, is warranted by the facts.

I have seen and used, as stated before, every form of BUCHU—the powdered leaves, the simple decoction, tincture, fluid extract; and I am not cognizant of any preparation of that plant at all equal to yours. Eighteen years experience, I think, to give me the right to judge of its merits, and with no prejudice or partiality, I give your precedence over all others.

I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys, than I have ever seen cured with any other proprietary compound of whatever name, or any other Buchu.

Respectfully, &c.,
GEO. H. KEYSER, M. D.,
11 Wood street, Pittsburg, Pa.
August 11, 1885.

ASK FOR HELMBOLD'S FLUID EXTRACT BUCHU.

From the Largest Manufacturing CHEMIST IN THE WORLD.

I am acquainted with H. T. Helmbold; he occupied the drug store opposite my residence, and was successful in conducting the business where others had not been equally so before. I have been favorably impressed with his character and enterprise.

WM. WEIGHTMAN (firm of Powers & Weightman), Manufacturing Chemist,
Ninth and Brown streets, Philadelphia.

The proprietor has been induced to make this statement from the fact that his remedies, although advertised, are

GENUINE PREPARATIONS.

and knowing that the intelligent refrain from using anything pertaining to Quackery, or the Patent Medicine order—most of which are prepared by self-styled doctors who are too ignorant to read a physician's simplest prescription, much less competent to prepare Pharmaceutical preparations.

THESE PARTIES RESORT to various means of effecting sales, such as copying parts of advertisements of popular remedies and finishing with certificates.

The Science of Medicine stands SIMPLY PURE AND MAJESTIC, having for its basis, induction for its pillar, truth alone for its capital.

A word of Caution.
Health is most important; and the afflicted should not use an advertised medicine, or any remedy, unless its contents or ingredients are known to others besides the manufacturer, or until they are satisfied of the qualifications of the party so offering.

HELMBOLD'S GENUINE PREPARATIONS, FLUID EXTRACT BUCHU, FLUID EXTRACT SASSAPARILLA AND IMPROVED ROSE WASH, Established upwards of eighteen years.

THE ONLY KNOWN REMEDY

FOR

DIABETES,

IRITATION OF THE NECK OF THE BLADDER,

INFLAMMATION OF THE KIDNEYS, CATARRH OF THE BLADDER,

STRAUTARY OR PAINFUL URINATION.

For these diseases, it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms. Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of Helmbold's Buchu will relieve you.

PHYSICIANS AND OTHERS PLEASE NOTICE.

I make no secret of ingredients. Helmbold's Extract of Buchu, is composed of Buchu, Cubebs, and Juniper Berries, selected with great care, prepared in vacuo and according to rules.

These ingredients are known as the most valuable Diuretics afforded.

A DIURETIC is that which acts upon the kidneys.

HELMBOLD'S EXTRACT BUCHU ACTS GENTLY.

Is pleasant in taste and odor, free from all injurious properties, and immediate in its action.

FOR THE SATISFACTION OF ALL

See Medical Properties contained in the Dispensatory of the United States, of which the following is a correct copy:

"BUCHU. Its odor is strong, diffusible, and somewhat aromatic. Its taste is bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, morbid irritation of the Bladder and Urethra, diseases of the Prostate, and Retention or the Incontinence of Urine, from a loss of tone in the parts concerned in its excretion. It has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections, and Dropsy."
